BIOCHEM Accelerator Forum

Are you a bio-based
company ?
Looking for funding
or partnerships?

Partnerships for better
innovation support

BIOCHEM Accelerator Forum

The **BIOCHEM Accelerator Forum** combines **technology transfer, partnering and venture capital events in one single location.**

Gain more knowledge about the bio-based industry in Europe, the BIOCHEM toolbox that will enable your company to grow and the best practices of established business angels and academics. And, of course... get access to potential funding!

BiobasedWorld at ACHEMA *20-22 June 2012, Frankfurt*

Meet key players from the whole bio-based value chain.

Bio-based products (e.g. bioplastics, bio-based chemicals, biocomposites) and Bioenergy (e.g. biofuels, biogas, biomass) are key topics of both the fair and the congress.

Technology Transfer Days

A technology and knowledge-sharing event for universities, research institutes and industry. This is the marketplace for science and technology in the bio-economy where experts from academia and industry will present **close-to-market R&D solutions** in a series of 10-minute talks.

Topics to be covered:

- Biorefinery processes for biomass conversion
- New crops for bio-based applications
- New microbial, enzymatic and catalytic production systems
- Scale-up of processes and downstream processing
- Bio-based products for new commercial applications in energy, chemical, cosmetics, food and textile industries

Venture Capital Event

Creating more visibility for companies looking to grow their business. If you are an early-stage, high potential start-up company looking for funding or partnering, this is the opportunity to get in contact with venture capital funds, TTOs and advisors! By **presenting your business to an international audience of investors and other industry experts**, you considerably increase your chances of finding the perfect investment or partnering deal!

Business Plan Competition

This competition provides support to researchers and entrepreneurs who are considering setting up a business in the bio-based sector. In order to stimulate the generation of new Bio-Based Business entrepreneurship, the most promising projects will be awarded and promoted.

BIOCHEM Accelerator Forum and Partnering Platform

Come and meet leading players looking for cooperative development deals and business partnerships from across the value chain. Take advantage and assess the scientific and industrial landscape of the bio-based markets to promote your latest developments and products.

The partnering system is open to all active participants of the BIOCHEM Accelerator Forum. Exhibitors and visitors can register two months in advance of the event. The system matches cooperation requests and offers and creates an individual meeting schedule; 30-minute meetings may take place either at exhibition stands or in a dedicated partnering area.

BIOSPAIN 2012 Investment Forum *19-20 September 2012, Bilbao*

6th International Meeting on Biotechnology – where innovative biotechnology businesses from across Europe meet with an audience of Europe's leading biotech investors.
