

Join the BIOCHEM Partnering Platform

The BIOCHEM Partnering Platform will be the central European information and communication platform for the bio-based products community. Get access to more than 3600 SMEs, organisations and research facilities from all over Europe. Register and use this innovative platform to identify cooperation and business partners in industry, university and research organisations.

Features of BIOCHEM Partnering Platform include:

BIOCHEM Partnering Profile

Promote your organisation to business candidates and networking partners by a detailed BIOCHEM Partnering Profile. Edit your Partnering Profile with the help of intuitive online forms including:

- Abstract
- Contact information
- Executive Summary
- Products & Services
- Co-operation offers

BIOCHEM Search Engine

Screen the BIOCHEM Partnering Platform for business and networking opportunities with the help of a dedicated search engine. The BIOCHEM Search Engine assists you proactively in your queries by a range of exclusive search features:

- easy targeted search for selected companies and organisations that have been identified by the BIOCHEM project partners and listed in partnering platform
- up-to-date results of searches conducted on the websites **and** partnering profiles of the listed organisations
- clever combination of search results in well structured result lists

BIOCHEM Monitor

Organise and monitor your personal shortlists of organisations, experts and networking opportunities.

The BIOCHEM Partnering Platform enables you to individually create and manage **online monitors** to overview the BIOCHEM research area and marketplace:

- Company monitors
- Expert monitors

- Offer monitors
- Press monitor

BIOCHEM Alert Services

The BIOCHEM Partnering System keeps you informed about trends and evolutions in the BIOCHEM community.

- RSS feeds
- Email alerts
- SMS alerts

BIOCHEM Networking Features

The BIOCHEM Partnering Platform enables you to create and develop your personal network with hand-selected experts from the different lead markets of BIOCHEM.

- easy classification and description of your organisation for a meaningful presentation within the platform
- Alert at every new entry that either fits your own profile or pre-defined search profiles
- Direct notification by e-mail for incoming inquiries from other platform users
- bookmarking of e.g. experts, companies and research centers for quick access
- “invite-a-friend” and “list organisation” feature to promote the platform and to inform the platform administrator about relevant missing SME`s and organisations
- Later on more features for one-to-one partnering, web conferencing and establishment of expert networks will be added,

REGISTER NOW

Registration with BIOCHEM Partnering Platform is free of charge for stakeholders of the BIOCHEM Lead Markets.
